Notice of allowability

Status of the Claims

This action is in response to papers filed 18 October 2006 in which claims 1, 3, and 34 were amended and a Terminal Disclaimer was submitted.

The previous objections and rejections in the Office Action dated 29 September 2006 are withdrawn in view of the amendments and Terminal Disclaimer.

The amendments and Terminal Disclaimer place the pending claims in condition for allowance.

Claims 1-4, 6-9, 12-37 are in condition for allowance.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The previous rejections under 35 U.S.C. 102(e) are withdrawn in view of Applicant's comments regarding a non-covalently bound label on page 12 of the response filed 15 August 2006. Meade specifically teaches away from the claimed intercalating labels (Column 4, line 20-Column 5, line 21). The previous rejections under and 35 U.S.C. 103(a) are withdrawn in view of Applicant's comments on page 15 of the response.

The prior art does not teach or reasonably suggest the claimed multiple stimuli and multiple detection of homologous or Watson-Crick triplex or quadraplex or homologous duplex as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
